

The Solpplhins

What are Solphins?

Solphins is a collection of 10,000 random generated dolphins generated and stored on the Solana blockchain.

What are Solphins?

Solphin is a NFT powerhouse on the Solana blockchain. Solphin will provide nft marketplace, nft trading, and nft loans. Our generative, rare art collection of Solphins is 10,000 random generated dolphins generated and stored on the Solana blockchain.

The Specs

Each dolphin is generated from over 69 possible traits scattered over 9 layers, some of which are less common than others, and some occur once in every 2000 units! Will you get lucky? No bonding curve and fair distribution, everyone is given the same chance. No two dolphins are alike, and each one of them can be officially owned by a single person on the Solana blockchain.
